A
Positive regulation of cellular biosy...
Regulation of transcription, DNA−temp...
Regulation of RNA biosynthetic process
Positive regulation of macromolecule ...
Regulation of nucleic acid−templated ...
Negative regulation of cell death
Negative regulation of apoptotic process
Regulation of RNA metabolic process
Negative regulation of biosynthetic p...
Negative regulation of gene expression
Negative regulation of cellular metab...
Positive regulation of cellular metab...
Negative regulation of programmed cel...
Regulation of programmed cell death
Positive regulation of nitrogen compo...
Regulation of apoptotic process
Positive regulation of protein metabo...
Cellular response to stress
Heterocycle metabolic process
Cellular aromatic compound metabolic ...
Nucleobase−containing compound metabo...
Organic cyclic compound metabolic pro...
Cellular protein localization
Cellular response to organic substance
Regulation of protein metabolic process
Regulation of cellular protein metabo...
Negative regulation of protein metabo...
Positive regulation of cellular prote...
Negative regulation of cellular prote...
Regulation of phosphorus metabolic pr...
